

## ENVIRONMENTAL QUALITY POLICY

**GRES DE ARAGÓN S.A. - FAVEKER S.L** is committed to ensuring the highest degree of satisfaction for its customers, employees, suppliers and stakeholders, as well as to being recognized as leading companies at the forefront of the ceramic tile sector. This reputation will be based on products characterised by their optimum quality and innovation, as well as the ongoing improvements in the standards of service, production processes and environmental responsibility.

In order to achieve these objectives, the Management undertakes to:

- Develop, implement and maintain a certified Environmental and Quality Management System based on **UNE-EN-ISO 9001** and **UNE-EN-ISO 14001** standards, complying with the applicable requirements.
- Meet customer requirements and end user expectations as well as all legal rules and regulations governing its activity (norms on tiles, EAD façades, CTE, customs, export certificates, etc.)
- Comply with all applicable environmental laws and regulations, the limit and condition values included in the Integrated Environmental Authorisation, as well as any other voluntarily acquired commitments.
- Work actively to set goals for ongoing improvements designed to promote the sustainable use of resources, increase energy efficiency, prevent pollution and contribute to the fight against climate change, as well as maximising the reuse of ceramic tile waste through its inclusion in the production process
- Encourage and raise awareness, motivation, training and skills development throughout the organisation in order to involve all employees in the ongoing improvement process.
- Reduce environmental impact by means of technically and financially feasible measures, as well as improve environmental performance throughout the product life cycle, even in the absence of specific legislation to this effect.

Achieving the objectives listed above must be based on the collective efforts of all employees and their commitment to quality and the environment, involvement and teamwork, taking the strategic lines set by the company as their benchmark.

The Management will set up the necessary communication channels to ensure that the Mission, Vision and Values and the Environmental Quality Policy are effectively communicated and understood at all corporate levels as well as by all stakeholders. Likewise, they will be reviewed at regular intervals for the purpose of any future adaptations.
